On March 30, 2018, changes to the HQ delegation 2-43 became effective. This new HQ delegation required a new regional redelegation for 2-43 due to, among other changes, the Administrator removing the delegation to the Regions to make final determinations of geographic jurisdiction (special cases).

The Region 10 redelegation of these authorities was revised and finalized again on April 15, 2019.

To the extent that actions taken pursuant to Region 10 2-43 redelegation of authorities from March 30, 2018 to April 15, 2019 require ratification, such actions are hereby approved and ratified.
